

Solutions Overview

Health Systems

Welcome to Synzi

A virtual care company dedicated to providing better ways for you to engage colleagues, specialists, and patients, simply and efficiently.

Synzi develops state-of-the-art solutions that make it possible for healthcare professionals to do what they do, only better.

Whether your organization is a single site, community-based hospital or has a large regional presence, our communication platform can help you enhance the timing and quality of the care your organization provides.

Our suite of innovative video conferencing and messaging programs leverages your existing workflows and can be configured for virtually every type of hospital, health system, and healthcare organization.

Better technology.

Better care.

Better outcomes.

Synzi Solutions for Health Systems

Emergent Care Virtual Consult

In emergency and urgent care situations, your medical staff may need immediate answers from specialists who can provide critical care decisions.

With Synzi, your staff can quickly access your network of specialists for virtual consults, on-demand, and help patients receive the care they need when they need it most.

- Access your network of specialists to provide your patient with a timely assessment and diagnosis.
- Enable your specialists to conveniently evaluate a patient from anywhere, at anytime, on any device.
- Deliver faster and better care, reducing wait times for a critical consult while improving patient and provider satisfaction.

Post Hospital Discharge Virtual Visit

Care doesn't end when a patient leaves the hospital. Patient readmissions are costly and many readmissions are preventable, especially within the initial 30 days post-discharge.

With Synzi, your staff can conduct convenient virtual visits with your discharged patients to better reach and re-engage patients once they return home, helping patients remain at home.

- Increase patient engagement, delivering guidance needed to ensure patients are adhering to plans.
- Expand patient access to convenient follow-up care, minimizing no-shows and reducing travel time and costs for patients and staff.
- Monitor patient progress after discharge, addressing medication reconciliation in real-time and reducing unnecessary readmissions.

Synzi Solutions for Health Systems

Behavioral Health Virtual Consult

The prevalence and impact of behavioral and mental health conditions is significant; behavioral and mental health providers are in high demand and short supply.

With Synzi, your staff can quickly connect your on-call behavioral health specialists with your patients for a virtual consult, helping patients get access to the care they need when they need it most.

- Access your network of behavioral health specialists anytime, anywhere, on any device.
- Obtain a consult in a more convenient manner, reducing patient wait times and length of stay, and minimizing travel time / costs for offsite specialists.
- Deliver impactful care with faster and better patient outcomes and improved patient and provider satisfaction.

Care Continuum Virtual Meeting

Enhancing the continuum of care is important to providers and patients as everyone can benefit from enhanced satisfaction, reduced costs, and improved health.

With Synzi, your team can quickly conduct a virtual meeting to discuss patient prognosis, aligning on patients' needs and expectations.

- Improve coordination and collaboration across transition in treatment, providers, and facilities.
- Conduct more timely and convenient meetings, reducing travel time and costs.
- Enhance the transition of care, improving patient and care team members' satisfaction.

Conclusion

Technology is advancing, impacting the way we live and presenting new opportunities to improve the delivery of healthcare. Synzi leverages these innovations every day, developing state-of-the-art solutions that make it possible for healthcare professionals to do what they do, only better.

We enable better performance for healthcare organizations, better access for patients, and better outcomes for all. Our goal is to continuously improve our platform and future-proof offerings that simplify complexity and inspire positive change among healthcare professionals and in the lives of patients.

The Synzi logo is rendered in a large, white, sans-serif font. The letters 'S', 'Y', 'N', and 'Z' are significantly larger than the letters 'I' and 'I'. A small 'TM' trademark symbol is positioned to the upper right of the final 'I'. The logo is centered horizontally and set against a background of a blue-tinted photograph showing the hands of several people gathered around a table, looking at a document or screen.
