

# How Synzi is Redefining Telehealth With A Cutting Edge Communication Platform

---

Learn how our virtual care solutions are innovative and impactful.

With Synzi's cutting edge communications platform, healthcare organizations can expand the application of existing equipment and devices in order to activate and use our virtual care solutions.

We enhance your organization's capabilities by providing access to on-call resources and bring timely care to your patient's bedside via video. With a simple click, your team is able to reach needed resources (interpreters, specialists, additional staff, pharmacists, and/or interpreters) from anywhere, at any time, and on any device.

With a simple click, your organization is able to reach needed resources on-demand via our cutting edge communication platform.

# Creating Value By Leveraging Existing Equipment and Workflows

---

Healthcare organizations are already equipped for our virtual care solutions.

## Integrated With Your Devices

Our virtual care solutions are designed to integrate with commodity devices and leverage technology you already have on-hand, including your medical staff's smartphones, tablets, and laptops. Our communication platform allows healthcare customers to leverage their investments in equipment and devices which are already in use.

## Configured to Your Workflow

We configure the platform to automate your workflow, thus enhancing your organization's processes vs. introducing a disruptive new process. You can enable provider rotation for quality of care, revenue distribution, and cost management as our intelligent call progression routes calls automatically based on your priorities.

## Insightful Applications

Reports can be generated to show utilization and opportunities to impact your organization's productivity goals and staffing plans. Our virtual care solutions can quickly scale and be applied throughout all departments, facilities, and locations. Virtual consults, virtual visits, and virtual meetings can be facilitated through our platform.

Technology is advancing, impacting the way we live and presenting new opportunities to improve the delivery of healthcare. Synzi leverages these innovations every day, developing state-of-the-art solutions that make it possible for healthcare professionals to do what they do, only better.

We enable better performance for healthcare organizations, better access for patients, and better outcomes for all. Our goal is to continuously improve our platform and future-proof offerings that simplify complexity and inspire positive change among healthcare professionals and in the lives of patients.
